

INFORMATION STATEMENT ON PACKAGING COMPLIANCE pursuant to Regulation (EU) 2025/40 (PPWR)

1. Operator identification

Company name	I.C.F. Srl
Registered office	Via Primo Maggio, 41/8 – 21040 Origgio (VA) Italia
Activity	Marketing of fasteners and unified small metallic parts and control of the manufacture of special products to customer design
Role with regard to packaging	User/packer and distributor of the products; not the manufacturer of packaging purchased from third parties

2. Scope of the statement

This statement is issued by I.C.F. Srl in relation to the packaging used for the delivery of the fasteners and fastening components marketed. Its purpose is to provide customers with the available information on the packaging used and its procurement, for the assessment of the obligations applicable under Regulation (EU) 2025/40 (PPWR).

I.C.F. Srl does not manufacture the packaging: for the main types of packaging purchased and used (cardboard, sacks/films and accessories), it relies on qualified suppliers and collects the declarations and technical information made available along the supply chain.

3. Types of packaging used

Imballaggio/componente	Material	Use	Notes
Boxes	Corrugated cardboard	Packaging of products	Three size types: small, medium, large
Inner bags	Polypropylene (PP)	Packing of items inside the boxes	Used as needed
VCI bags	Polypropylene (PP) additivato con sistema VCI	Anti-corrosion protection	Used as needed
Sacks	Polyethylene (PE) / raffia	Alternative packaging of products	Used as needed
Pallets	Wood, Euro pallet type	Transport packaging	Used for handling the boxes
Stretch film	Polyethylene (PE)	Wrapping of pallets	Used to stabilize the load
Adhesive tape	Neutral adhesive	Box closure	No metal staples or strapping
Labels	Paper	Packaging identification	Thermal transfer printing

4. Information on PPWR requirements

The information below refers to the types of packaging described in (3) and, for purchased packaging, is based on the declarations and information made available by the respective suppliers.

PPWR Article	Requirement	I.C.F. Srl position
Art. 5	Substances in packaging – heavy metals	I.C.F. Srl requests its packaging suppliers to provide information/declarations of conformity with the applicable requirements.
Art. 5(4)	PFAS in packaging intended for food contact	Not applicable to the types of packaging covered by this statement, as they are intended for the packaging and transport of fasteners and fastening components and are not intended for food contact.
Art. 6	Recyclability	I.C.F. Srl uses packaging procured from qualified suppliers and collects the relevant information on recyclability, depending on the material and the stage of application of the PPWR.
Art. 7	Minimum recycled content	Applicable to plastic packaging in the cases provided for by the Regulation. I.C.F. Srl relies on the information and declarations made available by suppliers of packaging and packaging materials.
Art. 10	Minimization of packaging	I.C.F. Srl selects and uses types of packaging according to the requirements for containment, protection, handling and safety of the product, avoiding, as far as technically possible, the use of unnecessary packaging material.
Art. 11	Reusability	The packaging used by I.C.F. Srl is normally intended for single use and is not designed as reusable packaging, except for specific transport solutions agreed with the customer.
Art. 12	Harmonized labelling	As of the date of this statement, the harmonized labelling requirements referred to in Art. 12 are not yet applicable. I.C.F. Srl will implement the relevant adjustments in accordance with the procedures and timelines provided for by Regulation (EU) 2025/40 and the relevant implementing acts of the European Union.

5. Supply chain and supporting documentation

For packaging purchased from third parties, I.C.F. Srl requests its qualified suppliers, where applicable, to provide declarations of conformity and/or technical information relating to the requirements of Regulation (EU) 2025/40. The available information is used by I.C.F. Srl to manage packaging compliance along its supply chain.

When products are received from suppliers already packaged and are delivered to the customer without repackaging, information relating to the packaging is requested, where applicable, from the original packaging/product supplier.

6. Composition and traceability

The specific composition and technical characteristics of individual packaging may vary depending on the reference and supplier. For this reason, I.C.F. Srl does not assign a single percentage composition to this statement that is valid for all supplies.

The detailed information and documentation received from suppliers are retained by I.C.F. Srl and may be made available, upon specific customer request, to the extent necessary and subject to confidentiality obligations relating to the supply chain.

7. Validity and updating

This statement is issued on the basis of the information available on the date of issue and refers to the types of packaging described in this document. I.C.F. Srl undertakes to monitor developments in Regulation (EU) 2025/40 and the related delegated and implementing acts, and to update this statement where substantial changes occur to the packaging used or to the applicable requirements.

This statement does not replace the declarations of conformity that are the responsibility of packaging manufacturers or other economic operators in the supply chain under the PPWR.
